The Women Build program empowers women to build Habitat for Humanity homes, enabling them to positively impact the lives of children by making homeownership a reality for families.

Women Build is not about excluding men; it's about including women.

The mission of Habitat for Humanity's Women Build is to work through affiliates to nurture, recruit and train women to build simple, decent, healthy and affordable houses.

Through Lowe's underwriting of Habitat for Humanity International's Women Build program, Habitat affiliates are able to challenge and enable women to build homes to address the issue of affordable housing.

As part of this partnership, Habitat for Humanity volunteers will be joined by Lowe's employees in hundreds of cities to address the crisis of substandard housing and make homeownership a reality for families in need.

Help build it!
